

Office of the Provost

Committees 2022-2023

Advisory Committee for Postdoctoral Affairs

Purpose:

The primary mission of this committee is to improve the postdoctoral experience at Yale through the development and promotion of sound postdoctoral mentoring practices. The committee also serves as a valuable resource to advise my office on postdoctoral training, career development, and other factors that have the potential to enhance postdoctoral life at the University. I am encouraged by the progress the committee has made since it was first convened and look forward to it continuing this important work during the upcoming year.

Planning Committee for the Osborn Memorial Laboratory Renovation

Purpose:

This project is informed by the recommendations from the Lower Science Hill Planning group. The group has produced several recommendations, many of which will inform the planning for the renovation of OML. The members of the Planning Committee for the Osborn Memorial Laboratory renovation and stakeholders in the building will provide valuable input on many facets of the project as described in detail below. We anticipate that this committee will meet at least quarterly, serving through the end of the design phase (estimated to complete in Winter 2024) and into the start of construction slated to begin in Spring 2024. 1. Communications - Disseminate information to your respective schools, departments, programs, institutes regarding the project's progress, gather feedback from your colleagues, and serve to represent your constituency's interests. 2. Assessment - Evaluate and provide direction on program and design for the building. 3. Observation - Participate in presentations from the architects and planners during design development and monitor overall project progress. 4. Response - As needed, provide consult and/or binding decisions to the project.

Yale Center for Natural Carbon Capture (YCNCC) Steering Committee

Purpose:

The Steering Committee will serve an important oversight role in YCNCC governance. Members will advise the YCNCC Co-Directors, David Bercovici and Liza Comita; provide guidance on Institute strategies and scientific initiatives; help steward Institute resources; interface with internal and external stakeholders; receive updates on plans and progress; provide feedback and propose ideas; and partner on faculty hiring, all consistent with the goals of the Center as articulated by the donor in their historic gift. Given the intrinsically interdisciplinary nature of the Center's mission, its success depends upon the contributions and support of a diverse Steering Committee. In steady state, I anticipate that the Steering Committee will meet a few times each semester. More frequent meetings may initially be necessary as the Yale Center for Natural Carbon Capture ramps up and initiates its activities.

Committee Members:

- Michelle Bell
- David Bercovici
- Jeff Brock, Co-Chair
- Gary Brudvig
- Indy Burke, Co-Chair

Yale Center for Research Computing Steering Committee

Purpose:

The Yale Center for Research Computing (YCRC) Steering Committee is a committee jointly chaired by the Deputy Provost for Research, the YSM Deputy Dean for Academic & Scientific Affairs, and the Chief Information Officer. This committee will steer the intellectual direction of the YCRC and advise on budgetary matters. More generally, the committee will guide strategy, direction and decision making regarding the use and support of computational research technologies, and it will help set priorities for the YCRC.
